

## DL 2101TD – HOTELS/HOSPITAL

This system studies the topics related with the hotel and hospital devices in the electrical civil installation. It has a modular structure and it consists of didactic panels installed on a vertical frame.

The modularity of this didactic system grants to the students a direct and immediate approach to the topics, offering the opportunity to study various subjects performing several experiments as following:

- Installation for audience request
- Installation for hotel
- Installation for nurse calling
